

INFOhio will deliver technology services with seamless interface, equity, and response to changes in technology, and trained staff to transform learning.

- Goal 1.1 INFOhio will support DASite efforts to implement Sirsi K-12 migration and to install UNIX hardware.
 - Goal 1.2 INFOhio will collect and utilize data to evaluate the use of technical services and to foster leadership skills of DASite providers
 - Goal 1.3 INFOhio will develop a single portal that integrates results from all INFOhio resources and non-INFOhio resources.
 - Goal 1.4 INFOhio will develop products and services to support improvements that meet users' needs.
-

INFOhio will inform, educate and promote awareness of INFOhio educational resources and technology to students, teachers and the Ohio community.

- Goal 2.1 We will audit INFOhio's communications efforts, evaluate past and present tools, and use feedback and data to develop and implement a communications plan for 2003-2008.
 - Goal 2.2 We will increase awareness of INFOhio's products and services among K-12 library media staff, other educators, parents, government decision-makers, and the public.
-

INFOhio will create an organizational structure that will be flexible, responsive to users' needs, and will foster relationships with partners for continued growth.

- Goal 3.1 We will engage various segments of our community in regular strategic planning, implementation and evaluation.
 - Goal 3.2 We will nurture and maintain our relationships with strategic partners, while striving to establish additional partnerships that strengthen INFOhio.
 - Goal 3.3 We will establish service level agreements based on requirements as articulated by our funding partners.
 - Goal 3.4 We will continuously review, evaluate and adapt INFOhio's organization continuously to best serve the needs of our stakeholders.
-

INFOhio will connect the learning community with instructional resources to transform and improve student learning.

- Goal 4.1 We will enhance student learning by increasing use of all INFOhio resources and services by students, educators and parents.
 - Goal 4.2 We will help transform student learning fostering awareness of information literacy skills and the importance of adopting the dialogue model among Ohio's students and educators.
 - Goal 4.3 We will creatively and economically use channels, partnerships and technology to ensure Ohio K-12 educational materials are even more accessible to all students.
 - Goal 4.4 We will continue to create products and services to support professional development and outreach.
-

INFOhio will acquire and promote the creation of products and services in response to user and implementer needs and emergent technologies.

- Goal 5.1 We will use our expertise to research, evaluate and select non-traditional resources, on behalf of the entire Ohio K-12 community, that support Ohio's Academic Content Standards
- Goal 5.2 We will create an INFOhio Curriculum Resources Catalog to model development at the district level.
- Goal 5.3 We will take a leadership role in facilitating the deployment of educational resources for K-12 support agencies.
