Cost Effective and Efficient

$51.8 million in saved costs through shared services to Ohio schools

"There is no doubt that literacy is the single most significant skill we can teach young children to prepare them for their future. INFOhio opens the world of reading by providing equitable access to a variety of resources for all students, no matter what their reading levels. These resources help develop reading skills K-3 with engaging and relevant formats, while introducing young learners to digital tools necessary in a technological world."

– Michelle J. Elia, Early Literacy Specialist, Special Education Consultant, State Support Team Region 5

"For Ohio's students to develop the information literacy skills they need to engage with the digital materials used in universities and in future career opportunities, the rich collection of educational resources and services that INFOhio provides to all Ohio PreK-12 students is essential. INFOhio's partnership with OhioLINK, OPLIN, and the State Library of Ohio lets Ohio's libraries cooperatively and cost-effectively provide learning resources to all Ohioans at all stages of life."

– Sara Bushong, Dean, Bowling Green State University Libraries
